

Engineering America

Travis A. Hackworthy

Travis is the Vice President and a Trustee of Engineering America Enterprises, Inc. headquartered in Oakdale, MN. Travis is a member of the Board of Directors for Engineering America and its regional offices in Loveland, Colorado and Olathe, Kansas. He is also the Regional Manager of the Southwest office in Gilbert, Arizona.

Travis began his career partnering with his brother in commercial construction and as an owner/manager of several residential real estate properties. In 1983 he joined Grubb Equipment Sales Corporation to sell water and wastewater equipment to municipal and industrial markets.

At Grubb he was involved in selling and development of customer relations for a five-state area for municipal and industrial equipment. He was instrumental in the design and development of blower packages and sound enclosures, field start-up training, and was client manager of OEM sales.

In 1992, Grubb Equipment and Engineering America became subsidiaries of the newly-created Engineering America Enterprises, Inc. Travis continued to implement strategic goals as a strategic team leader in goal setting, growth management, hiring and training of key personnel and acquiring key manufacturers to promote growth of the company. Travis purchased shares in the company in 1993 and has been instrumental in growing its value thirteen-fold as of 2008.

Travis was born in Wisconsin and attended the University of Wisconsin (Eau Claire and Milwaukee), and the University of Minnesota. He lives in Arizona with his wife and three sons. His hobbies and interests include travel, vacationing at a family home in North Central Wisconsin (which he and his brother built as teenagers), cheering for the Green Bay Packers and Wisconsin/Minnesota college hockey teams, boating, and landscape gardening.
