

# Engineering America

## Life's Other Meaningful Purposes

**Engineering America and Cemstone®  
Donate Concrete Slab for Paul's Park II,  
Courage Center Camp in Maple Lake, MN**

Tony Belden, Thor Becken  
and Floyd Adelman

*Courage Center is a Minnesota-based non-profit rehabilitation and resource center that empowers people with disabilities to realize their full potential in every aspect of life.*

In the late fall of 2009, Engineering America and Cemstone came together for a good cause. The two companies donated an 80'W by 84'L by 6" thick steel reinforced concrete slab for the camp, which will benefit future children guests of Courage Center's Paul's Park II in Maple Lake, MN.

Concrete, delivery charges and concrete truck driver superintendents were supplied by Cemstone. Engineering America supplied all steel rebar and provided all steel reinforcement and concrete installation/finishing labor to complete this joint effort. The CEOs of the two companies, Tony Belden of Engineering America and Thor Becken of Cemstone, were thrilled to do the project specifically to assist children who are disabled enjoy summer activities at the camp.

Paul's Park II is named in memory of Paul Adelman who died at age 12 from a cancerous brain tumor. Floyd Adelman, Paul Adelman's father, is a business mentor to Tony Belden in the round table business owner's association "Inner Circle" of the Twin Cities.

Specify quality, experience and low maintenance. Specify Aquastore® glass-fused-to-steel tanks. For more information, call Engineering America: MN **651-777-4041**, KS **913-782-7774**, CO **970-962-9400**, AZ **480-895-1106** or visit us online: [www.engamerica.com](http://www.engamerica.com).

**In 1980 we made an innovative promise that our tanks would never need to be painted. No Aquastore® tank has been painted since – we are the authentic glass-fused-to-steel!**
